

# Refrigeration Reimagined

Compact fan motor unit to maximise storage space.

DC fan motor generates less heat than a conventional AC motor and over 80% more efficient.

Unique Pillar Less design lets you fit larger trays, platters, pans and more produce than ever.

Removable door gaskets for **easy cleaning** without the need for tools.

Easy access to **removable air filter** for quick servicing.

**Smart hygienic design** with rounded edges and stainless steel materials for easy cleaning.

**Pillar Less design** for larger storage and convenient access.

**Gastronome option** available

The Pillar Less range builds on the technology and innovation of the Professional Series to create space-saving solutions which maximise capacity and usefulness.

The diverse options range from single, double or split doors make this range perfect for any commercial kitchen need but especially for restaurants who produce or need to store the largest of dishes. With no centre pillar you can use trays and containers of varying sizes.
