Commercial Fridge and Freezer Sales Australia. All product images are provided for illustration purposes only. All specifications are subject to manufacturer changes without notice, so please check on the manufacturer's website for current product data.

- Equipped with an **Early Warning System** to anticipate and monitor risk factors; It alarms an early warning sign to eliminate products loss and future service problems,
- The **Hot Gas Condensate System** has been specially treated to avoid corrosion through a creative innovation of Turbo Air, improving efficiency without risk of corrosion coolant leakage, and avoiding condensation overflow,
- The **Doors Alarm System** sounds when doors are left open for more than 30 seconds to prevent cold air from spoiling food products within the cabinet,
- Lighter and longer lasting **LED Lighting Interior Display System** to deliver attractively, increased lighting; Saves energy and maximizes visibility in the display area by producing less heat,
- Standard **doors locking system** and **Low-E double glass**,
- Our innovative **Energy Conserving Fan Control** saves energy by at least 15% and increases the life of the compressor up to 30% through the use of algorithmic air circulation for optimum temperature levels,
- The **Digital Temperature Control System** provides accurate and constant temperatures across the cabinet, enabling food products to stay fresh for a long time,
- **Modern Product Designs** are user-friendly whilst preserving the highest product visibility and esthetics by harmonizing curvature and stiffness
