## Description

# Turbo Air KHR12-2 2 Door Salad fridge

- The unit has side mounted compressor which makes servicing easy without moving the unit and front breathing feature makes it exceptionally efficient for narrow spaces,
- Forced air system allows cold air to flow all around the food pan area which covers not only underneath the pan, but also front, top and rear,
- Cutting board is 240mm deep and 12mm thick provides plenty of working space and new side rail cutting board makes it easy to secure and remove the board,
- Hot gas condensate system helps to resist corrosion. it will not only increase the efficiency without refrigerant leakage, but also prevent overflow of water,
- CFC free R-134A used for refrigerator and evaporators and condensers for exceptional efficiency and quick cooling,
- Adjustable, Heavy duty , Polyethelene coated wire shelves,
- Stainless steel exterior and interior with AL inside walls and door liners. The sharp corners and edges have been rounded to minimize the risk of injury,
- The entire Cabinet and doors are formed-in-place using high-density CFC free polyurethane insulation,
- Ergonomically designed doors with easy grip handles,
- Self-closing doors,
- Forced-air refrigeration system maintains constant temperature of the cabinet,
- Evaporator fan and stainless steel louver allow uniform circulation of cold air through the unit including the food pans which fulfills NSF standard
