Description

Turbo Air KRF65-3 3 Door Fridge/Freezer Combo

- Digital temperature control system accurately provides realtime temperature which makes it easy to keep food products

fresh for longer period of time,

- High-tech monitor constantly shows the current temperature of the cabinet and allows to adjust thermostat to change its temperature too,
- Hot gas condensate system helps to resist corrosion. It will not only increase the efficiency without refrigerant leakage, but also prevent overflow of water,
- Adjustable, heavy duty, PE (Polyethylene) coated wire shelves,
- Stainless steel exterior and interior with AL inside walls and door liners. The sharp corners and edges have been rounded to minimize the risk of injury,
- The entire cabinet and doors are formed-in-place using high-density CFC free polyurethane insulation,
- Automatic evaporator fan motor delay prevents the hot and moist air entering into the refrigerator which saves energy and increases compressor's life span,
- Ergonomically designed doors
