The Fresh Refrigeration KTM-25RS1 is a top-of-the-line upright one-door fridge with a spacious 480L capacity, perfect for commercial and professional kitchens. This refrigerator boasts a cutting-edge system that includes digital temperature control and monitoring, a hot gas condensate system, and an automatic evaporation and defrost system, ensuring precise and consistent temperature regulation. Its strong and durable cabinet finish features stainless steel on the top, front, sides, and doors, along with galvanized steel on the back and bottom, all complemented by a modern and robust one-piece grill design. Inside, you'll find PE coated sturdy wire shelves that can withstand heavy loads. The refrigerator maintains a product temperature of 32°C and 41°C (0°C and 5°C), ideal for preserving food at its freshest. Moreover, its user-friendly door design includes auto-closing doors with stoppers, door pressure release devices, and sturdy, easy-grip handles for effortless access. The magnetic door gasket ensures an easy-to-remove feature for cleaning or replacement, and the added security of a door sensor with a magnetic switch and door locks comes standard, making the Fresh Refrigeration KBM-25RS1 a top choice for all your refrigeration needs.

Description

Fresh Refrigeration KTM-25RS1, a top-notch top-mount upright one-door fridge with a capacious 480L capacity. This refrigerator is engineered to deliver optimal performance and user convenience. The digital temperature control and monitoring system ensure precise temperature management, while the hot gas condensate system and automatic evaporation and defrost system maintain ideal humidity levels. This fridge is not only about functionality but also boasts a robust and durable cabinet finish, with stainless steel accents on the top, front, sides, and doors, complemented by galvanized steel finishing on the back and bottom. Its modern one-piece grill and PE-coated sturdy wire shelves exemplify durability and aesthetics seamlessly.

Temperature maintenance is a breeze with this appliance, as it keeps products consistently chilled between 32°C and 41°C (0°C and 5°C). The user-friendly door design sets it apart from the rest, featuring auto-closing doors with stoppers for energy efficiency and a door pressure release device for easy opening. Sturdy, easy-grip handles and effortless door operation make access effortless. The magnetic door gasket ensures a secure seal, making it simple to remove for cleaning or replacement, and the door sensor with a magnetic switch and door locks provide added security, setting a high standard for a modern refrigerator.
