## SIMAG by Bromic IM0034HSC-HE Self-Contained 32kg Hollow Ice Machine

The SIMAG by Bromic-HE 32kg Self-Contained Hollow Ice Machine makes a great choice for a reliable, average-capacity ice maker. It has smaller dimensions and doesn't need much ventilation clearance, so there's no problem fitting it in a small-spaced cafe or bar.

It consistently produces crystal-clear, hollow ice that is perfect for cooling liquids and drinks rapidly. The IM0034HSC-HE 32kg has a full body in stainless steel, which prevents heat conduction and thus reduces energy consumption. It also features a sleek finish that complements modern spaces. Our patented Agion-treated materials feature antimicrobial technology that keeps the ice sterile and the machine itself hygienic. This enables easier cleaning and premium ice quality.
