The Trent is a Warm & hot food display cases that provide the ideal display and advertising solution. Designed and manufactured in Europe they have a solid stainless steel construction and are easy to use.

## Description

The Trent is a Warm & hot food display cases that provide the ideal display and advertising solution. Designed and manufactured in Europe they have a solid stainless steel construction and are easy to use.

The units come with a removeable crumb tray which makes them easy to clean and are fitted with a mechanical thermostat and front light bars.

The Trent is accessed from the rear only. The Trent is more square in it's appearance and has an additional shelf, giving it more capacity for displaying food.
